

Who We Are:

Zen Master Thich Nhat Hanh and the Plum Village Community have over 30 years of experience practicing and teaching mindfulness to thousands of people internationally, including educators' and young people.

We are working with experienced educators who also practice mindfulness, to develop a secular curriculum for young people, ages 6-18, based on the core mindfulness practices of Plum Village. Pilot programs in schools began in September of 2011.

"You cannot transmit wisdom and insight to another person. The seed is already there. A good teacher touches the seed, allowing it to wake up, to sprout and to grow." - THICH NHAT HANH

What to Expect:

We recognize that in recent years, school environments have become more stressful, with increasing demands placed on teachers and staff. With this in mind, our program is designed not to create more work or overload your schedule.

Our methods are simple and easy to apply in your everyday life and in your classroom. Our focus is on your personal well-being and happiness. In our extensive work with educators around the world we have seen that when the teacher is personally supported by mindfulness practice it is naturally transmitted in the classroom.

"I learnt how to relax, control my stress, and untie the knot in my head, express and share" - GRADE 11 STUDENT, FROM INDIA, 2012
